In today's daily work we are facing more fetus with cardiac anomalies. With this two (2) day course **endorsed by ISUOG** organization, you will receive informations various cardiac pathologies like: Abnormal four chamber view , cardiac Doppler importance, Conotruncal anomalies, Pulmonary atresia or left side lesions etc...

Course Description

Course on fetal echocardiography focusing on the use of ultrasound imaging in order to detect abnormalities. During this course the faculties will give lecture to be able to understand, recognize and know how to treat the most common cardiac pathologies.

Venue

Intercontinental Hotel – Sala Fortuna
4 Nicolae Balcescu Blvd.
010051 Bucharest , Romania

Preregistration require

Limited amount of seats : 50

Registration deadline

10th of November 2014

Registration policy

First come, first served

Registration fee

300 lei VAT included

Payment details:

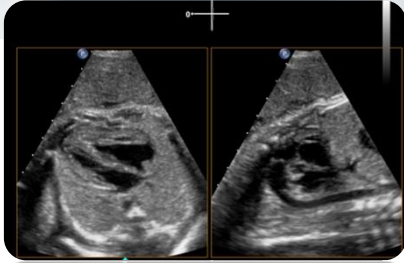

Paloma Tours SRL
60 Vasile Lucaciu Street
District 3, Bucharest
VAT number: RO 3801712
Bank Account: RO25INGB 0001 0081 9877 8910
ING Bank

ISUOG will also offer membership reduction cost to participants of this workshop. Membership cost will be 10£ instead of 50 £

Course Director

Prof. Joanna Dangel, MD, PhD

Pediatrician, cardiologist, consultant in perinatal cardiology Medical University of Warsaw. For many years a councilor and a treasurer for the Fetal Cardiology Working Group of AEPC. Director of the fetal cardiac intervention program in Poland.

Faculties

Joanna Kuran, MD

Obstetrician in training, IInd Department of Obstetrics and Gynecology of Medical University of Warsaw. FMF certificates of 1st trimester scanning (NT, DV, TV, nasal bone), Doppler) and 2nd trimester scanning. Polish basic certificate for fetal cardiac scanning. Member of ISUOG

Rodica Toganel MD, PhD, FESC

University of Medicine and Pharmacy of Tirgu Mures, Institute of Cardiovascular Diseases and Transplantation of Tirgu Mures, Romania.

Radu Vladareanu MD, PhD

Obstetrician and Gynecologist, Director of Obstetrics and Gynecology Department, Carol Davila University of Medicine and Pharmacy, Bucharest, Romania. President of Romanian Society for Ultrasonography in Obstetrics and Gynecology, National Coordinator for Ultrasound in OG and for Maternal Fetal Medicine certificates in Romania. Vice-President of Fetus as Patient International Society..

Claudiu Marginean MD, PhD

University of Medicine and Pharmacy of Tirgu Mures, Institute of Cardiovascular Diseases and Transplantation of Tirgu Mures, Romania.

Adam Kolešnik, MD

Paediatric cardiologist in training, Memorial Hospital Child's Health Centre. Anatomist in Department of Descriptive and Clinical Anatomy. Secretary of cardiovascular morphology working group of AEPC. Polish basic certificate for fetal cardiac scanning. Active member of the fetal interventional program in Poland.

FETAL ECHOCARDIOGRAPHY Two (2) day program

Day 1

November 28th 2014

9:00-09:30	Fetal echocardiography – from screening to advanced consultation – what is the difference? Joanna Dangel
09:30-10:00	Fetal echocardiography in Romania – how to built the effective program? Rodica Toganel
10:00-11:00	How to evaluate fetal cardiovascular system to minimize mistakes: echo – morphological correlation. Adam Koleśnik
11:00-11:15	<i>Coffee Break</i>
11:15-12:00	Why fetal Doppler is important – feto-placental flow pattern from the first to the third trimester, how to look for abnormal and borderline results. Joanna Kuran-Ohde <ul style="list-style-type: none">• IUGR• Fetal anemia• Cardiac defects
12:00-12:45	Fetal cardiac Doppler and fetal heart failure – common language between obstetrician and cardiologist. Joanna Dangel
12:45-13:30	Abnormal four chamber view - what to think about, echo-morphology correlation: <ul style="list-style-type: none">• abnormal angle• right side larger than left side• cardiomegaly Adam Koleśnik, Joanna Dangel
13:30-14:30	<i>Lunch</i>
14:30-15:30	Septal lesions: VSD, AVSD echocardiography and morphology. Adam Koleśnik, Joanna Dangel
15:30-16:15	Aortic arch abnormalities: CoA, IAA, vascular rings. Joanna Kuran- Ohde, Adam Koleśnik
16:15-16:45	Ventricular disproportion in the third trimester of pregnancy and the suspicion of fetal aortic coarctation. Claudiu Marginean
16:45-17:00	<i>Coffee Break</i>
17:00-18:00	Conotruncal anomalies – case studies: echo-morphology correlations. Adam Koleśnik, Joanna Dangel
18:00-18:30	Physical activity during pregnancy – advice from the physiotherapist. Katarzyna Kozera
18:30- 19:30	Case studies and on-line scanning.

FETAL ECHOCARDIOGRAPHY Two (2) day program

Day 2

November 29th 2014

9.00-10.00	Left side lesions: aortic stenosis and HLHS - prenatal evolution - echocardiography and morphology. Role of fetal interventions. Joanna Dangel
10.00-11.00	Pulmonary atresia&intact VS, critical pulmonary stenosis - echocardiography and morphology. Role of fetal interventions. Adam Kolešnik
11.00-11.15	<i>Coffee break</i>
11.15-11.45	The associated cardiac malformations of chromosomal abnormalities. Radu Vladareanu
11.45-12.30	Cardiovascular system in twin pregnancy. Joanna Kuran
12.30-13.30	Fetal cardiac arrhythmias – diagnosis and therapy. Joanna Dangel
13.30-14.00	Fetal cardiac arrhythmias – Romanian experience. (cardiologist from Rodica Toganel team)
14.00-15.00	<i>Lunch</i>
15.00-16.00	Heterotaxy syndromes – the real diagnostic challenge in prenatal cardiology. Adam Kolesnik, Joanna Dangel
16.00-17.00	Abnormalities of great veins: ISVC to coronary sinus; venous duct absent, TAPVD. Adam Kolešnik. Joanna Kuran - Ohde
17.00-17.15	<i>Coffee break</i>
17.15-18.00	Fetal cardiac emergency – implication for the perinatal care. Counselling – the most important part of prenatal cardiology. Joanna Dangel
18.00-19.00	Case studies and on-line scanning
